

TEACHER TRAINEES' ASSOCIATION OF GHANA; NATIONAL SECRETARIAT
NEWS LETTER
CHINESE SCHOLARSHIP

Special greetings from the national secretariat of the Teacher Trainees' Association of Ghana. The association through its initiatives won the Chinese scholarship which we all are in the known and we are happy to announce that we have the chance to send about 500 students on full scholarship to further education in China either in first degree, masters and PhD Programmes. More than 30,000 courses available from Business, Economics, Law, Medicine, Aviation, Dentistry, Management, IT, Oil and Gas and many more.

NATURE OF SCHOLARSHIP

TTAG through a university in Ghana that is affiliated to many universities across the globe called Crown University acquired full scholarship from more than three universities in China. Accommodation is provided, feeding and tuition shall be taken care of. Applicants only need their passport, visa, plane ticket and would pay a processing fee.

REQUIREMENTS

All applicants must have or get their passports.

All applicants applying for first degree in any programme of their choice must have a WASSCE certificate with C6 as lower grade, a recommendation letter and a testimonial. (4 years standard)

Applicants applying for Master's degree must have a first degree certificate, transcript and two recommendation letters. (2 years)

PhD applicants will involve both one's previous Undergraduates and Masters Degree document. (3 years)

Applicants who completed College of Education and want to further the degree in education course, you are to provide you certificate and transcript.

Application closes on the 31st of January, 2019.

EDUCATIONAL BENEFITS

It gives students International learning and knowledge towards acceptance and

understanding of an array of different cultural and community perspectives. This enhances the value of a student academic degree.

It enables language acquisition through practical immersion. It creates awareness and adoption of alternative, multi-faceted approaches to learning. It provides analytical and problem solving skills among students and faculty.

It enhances interest of lecturers and students in global issues as well as a broader general knowledge.

PERSONAL BENEFITS

Self-development and awareness leading to enhanced self-confidence and self-esteem. This is often the most noticeable change in returned exchange students. Maturity and social poise, fuelled by the necessity to confront challenges outside a familiar support network and comfort zone. Integration into another family as well as the development of life-long friendships, fostering an appreciation of home and family built up in both African and Asian context. A tremendous sense of accomplishment upon completion encourages students to develop independent opinions, make informed decisions and strive to attain fresh goals.

LONG-TERM BENEFITS

Students who go on to tertiary studies find themselves more comfortable in 'foreign' environments.

Prospective employers in almost every field look favourably upon experience gained while living overseas and knowledge obtained of another language and culture. Increased pressure to communicate and relate to others develops an awareness of group dynamics and personal sensitivity towards others. Successful program completion represents an excellent measure of personal flexibility, encompassing an ability to reach compromise, focus and succeed through challenging times. Opportunities for faculty/students to work with researchers in their fields so as to build ties with leading universities.

EMPLOYMENT BENEFITS

Enhance employment prospects with International experience. Adapting to a different cultural environment will show to employers that you are flexible, adventurous and a self-starter. Gain invaluable experience for future employment through vacation internships in your area of study offered by some universities. Develop skills to deal with change Global awareness (cross-cultural skills and communication) Global networking opportunities
